

UGP Statement About COVID-19

Please be assured that we are adhering to all regulations and guidelines from the Centers for Disease Control and Prevention related to the containment of the COVID-19 (coronavirus). We have taken a variety of actions, including educating our employees about the virus and sharing resources regarding keeping the workplace clean. We also have been encouraging employees to use proper hygiene practices and extending safety precautions in preparing all packages for delivery.

If you are still concerned about the possibility of contracting the virus from a delivered package, please consider this statement from the CDC website: “In general, because of poor survivability of these coronaviruses on surfaces, there is likely very low risk of spread from . . . packaging that [is] shipped over a period of days or weeks at ambient . . . temperatures” (<https://www.cdc.gov/coronavirus/2019-ncov/faq.html>).

The safety of our customers is very important. Our prayer is that you and your families stay well during this difficult time.
